

Cherening. A sorry mess inside. But much trouble had been taken to make our tiny living quarters tenable, though they are reached by a narrow, steep winding stair through a corridor full of builders rubble, and, strangest of all, by a march of frogs which apparently migrate through the House every year on the way to the lake. A scientific curiosity.

Living quarters to consist of

(1) Bedroom 2 beds.

(2) Bedroom 1 bed

(3) W.C. & bath combined

(4) V. small sitting room

(5) V. small dining room

} all on first floor

(6) Kitchen

(7) Downstairs W.C. & basin } on ground floor
down a passage.

Urgent need. A study for me & a dining room on the same floor as the kitchen.

Much money has been wasted & there has been no central control. The walled garden is a shambles.

The Lake & lawn behind the House beautiful.

Home Farm well farmed. Dairy. Pigeon house & keep built

Much trouble with Press & drgs.
