Statement in House on Rhodesia. Toxds' arrest provoked much indignⁿ. in C. Swinton.

How unfortunate that I have to say "told you so" having sacrificed myself according to promise in the debate. My attitude always was that the exercise tho' in the interests of Rhodesia (blacks & whites) was not in the interests of G.B. or of the Govt. As it was certain to come unstruck and to get in the way of far more important objectives, viz. Europe and economic viability. We shd. allow sanctions to ^(unhappily) wither ~~and~~ then face U.N. with other nations' duplicity.
~~Would not approve~~
